WORK EXPERIENCE

- Full-Stack Developer & Founder** | Scrupulous (Freelance Agency) Aug 2025 – Present
- Built and deployed **20+ production websites** for clients across Pakistan, Saudi Arabia, and the UK independently managing the full SDLC from Figma UI/UX design to Vercel/DNS deployment and post-launch support.
 - Architected full-stack **Next.js + TypeScript** applications with **MongoDB, Cloudinary, NextAuth**, and RESTful API routes, delivering **secure admin dashboards** with product CRUD, order fulfilment, coupon engines, dynamic delivery charges, review moderation, and real-time sales analytics.
 - Executed end-to-end **technical SEO** dynamic metadata, Open Graph, XML sitemaps, JSON-LD structured data, canonical tags, and Google Search Console integration consistently achieving **99+ Lighthouse SEO scores**.
- Front-End Developer Intern** | Code Alpha • Remote Feb 2024 – Mar 2024
- Shipped three interactive JavaScript apps (Calculator, 3D CSS Gallery, Music Player) demonstrating DOM manipulation, event delegation, and CSS animation.
 - Resolved cross-browser CSS inconsistencies across mobile, tablet, and desktop viewports.

PROJECT

- Amass Bakery — Custom Cake eCommerce** SA [amassbakery.com](#)
Stack: Next.js 16, TypeScript, Tailwind CSS, MongoDB, Cloudinary, NodeMailer, MUI, Framer motion, JWT
- Built a full-stack bilingual (EN/AR) eCommerce store for a Saudi bakery product catalogue, advance order flow, and Cloudinary-optimized media; achieved **100 Lighthouse SEO / 97 Performance**.
 - Engineered a secure admin dashboard with product CRUD, inventory, order, review, and real-time analytics.
- Chunk'd Cookies — eCommerce** PK [chunkdpk.com](#)
Stack: Next.js 16, TypeScript, Tailwind CSS, MongoDB, Cloudinary, NodeMailer, MUI, Swiper, JWT
- Built a product-drop eCommerce store with box-size selection, daily order windows, coupon engine, dynamic delivery logic, **product CRUD** and **sales analytics** dashboard all managed via a JWT-secured admin panel.
 - Ensured responsive design, **SEO optimization & performance-focused** architecture, (**100/100** on Lighthouse)
- Zevora Official — Multi-Category Fashion eCommerce** PK [zevoraofficial.com](#)
Stack: Next.js 16, TypeScript, Tailwind CSS, MongoDB, Cloudinary, Framer motion, JWT, GSAP
- Built a multi-collection fashion store with category filtering, product search, full checkout flow, and Cloudinary-optimized image delivery achieving **100/100 Lighthouse performance**.
 - Implemented full **technical SEO** (JSON-LD, XML sitemap, Open Graph, canonical tags, Google Search Console) ensuring complete page indexing and organic visibility.
 - Designed modern, accessible, conversion-focused UI/UX with smooth animations to boost engagement.

EDUCATION

BSc Computer Science | Iqra University, Islamabad Oct 2024 – Jun 2028 (In Progress)
